CURRICULUM VITAE

ABOUT

1973 Born in Lisbon, PT.

Sara Domingos is a Lisbon-based interdisciplinary artist whose work blurs the line between painting, graphic design, and textile arts. Working from her studio in the historic centre of Lisbon, her creative process is driven by ongoing research and experimentation, with a particular focus on intercultural dialogue. This exploration frequently leads her to examine the liminal spaces between cultures, which ultimately become central themes in her work.
